

### EP1 PS22

### Description

**EP1 PS22** is an electrically operated piston pump especially designed for the injection of single shot polyurethane grouts and other products suitable for spray application.

For ease of operation it is skid mounted making it lightweight. The **EP1 PS22** comes with a flexible suction hose enabling the material to be drawn straight out of the drum for ease of operation and for health and safety reasons

### Key Benefits

- Triple lip seal
- Stainless steel piston
- Easy to replace packings
- Light weight designs
- Innovative brushless DC motor
- Intelligent dead band controller
- LED display system
- Multi-function pressure regulator
- Frequent clean
- Slow motion function

### Subsequent Finishes / Ongoing Maintenance

Always make sure that the pump is cleaned after injection by flushing out, as per information on data sheet of product used, the pump should then be left charged with engine oil and flushed once again with the cleaner prior to next use.

### Technical Data

Technical Data – EP1 PS22	
Electric Motor Rating	0.8 5kW
Horsepower	0.75HP
Weight	15.5 kg
Electrical Supply	110 lts
Delivery Rate	1.91Litre / min
Max. Pressure	230 Bar
Hose HP	5 metre
Max Sound Pressure Level	90 dB

## Health & Safety

---

EP1 PS22 should only be used as directed. We always recommend that the Health & Safety Data Sheet is carefully read prior to application of the material. Our recommendations for protective equipment should be strictly adhered to for your personal protection

Available to hire from Triton Systems - Subject to availability - £180 + VAT per week or part thereof.
